

COMMUNITY BENEFITS

IMPLEMENTATION PLAN

January 2016

I. COMMUNITY

The Hospital has provided meeting space and other resources for the EMT training program in the past. Coordination with the facilitators/instructors will ensure this continues as needed when the courses have been scheduled.

The Hospital will hold an annual Health Fair to ensure that all residents of the county have access to the basic health screenings with no out of pocket expense. The date of the Health Fair is to be determined by the availability of staff and resources.

II. CHARITY CARE

The Hospital will continue to provide indigent care to individuals meeting the specified criteria. This will be done on an ongoing basis throughout the year and reported monthly to the board via the monthly financial statements.
